

MFPC INDUSTRY TALK 2023

MFPC Industry Talk aims to create intense awareness of financial planning and to enhance financial planning literacy among undergraduates. It also encourages self-discipline and personal financial management. In addition, it serves as a platform for information exchange and promotes financial planner as a professional career.

OBJECTIVES

To align with the Malaysia education blueprint on industry engagement for undergraduates

To level up the financial literacy of undergraduates before entering the workforce

To widen the internship and employment opportunities of undergraduates with various financial firms

To cultivate a positive mindset among undergraduates on business professionalism and ethical conduct
