Greetings from Malaysian Financial Planning Council (MFPC)!

MFPC wishes to encourage members of the public to exercise caution when considering cash trust products or similar arrangements.

Before making any financial commitment or investment decision, consumers are encouraged to undertake appropriate due diligence, seek clarification from product providers regarding the nature of the product and underlying activities involved, and satisfy themselves that the relevant regulatory requirements have been complied with.

Consumers are also encouraged to verify the status of relevant entities through the Securities Commission Malaysia's Investment Checker and seek further clarification through the SC's official channels where necessary.
